

**MEMORANDUM
Auto Maintain**

25th February 2011

Dear Valued Distributors of EcoFirst Products,

Please be informed effective 1st March 2011, EcoFirst Products will be implementing the Auto Maintain system for All Distributors' monthly 100PV maintain for Part 11 of Promosi Smart Eco Marketing plan.

The Company shall deduct 20% from your Daily Bonus if your daily bonus amount is greater than RM 20.00 on the day. The amount deducted from Auto Maintain will be accumulated up to RM 250.00 within the month, hence you are automatically maintained for the month.

Once your accumulated amount for Auto Maintain achieves RM 250.00, the Auto Maintain deduction will be discontinued to be deducted from your daily bonus for the rest of the month's Daily Bonus.

In the event that your Daily's Bonus deduction does not reach RM 250.00, you are required to top up accordingly via cash/credit card or cheque.

- (Please take note of 3 days grace period for verification of funds for credit card and cheque payment during month end top up – hence cash would be the best option)
- You will be able to view your Auto maintenance status at Auto Maintain from your personal personal log in ID.

Please be informed.

Thank you.

From EcoFirst Products Management
